

AMC THREAD GREASE Zn50™

Lubricants & Cutting Oils

Description

AMC THREAD GREASE Zn50™ is a heavy duty, high performance thread compound containing 50% metallic zinc. AMC THREAD GREASE Zn50 is a No. 2 consistency grease designed to reduce galling, friction and minimise wear. AMC THREAD GREASE Zn50 is extremely tenacious and will adhere to all metal surfaces, is resistant to water wash and helps prevent corrosion.

Application

AMC THREAD GREASE Zn50 is applied generously to the tool joints and threaded sections of drill pipe, normally applied with a brush, spatula or suitable item.

Recommended Treatment

Apply generously to the tool joints and threaded sections of drill pipe.

Please Note: Several factors will dictate the most appropriate concentration rate. Please contact your nearest AMC representative for optimum results.

Advantages

- Easily applied
- Resistant to high temperatures
- Exceptional adhesion characteristics
- Minimises wear
- Aids in preventing corrosion to applied areas

Typical Physical Properties

Appearance:	Smooth grey paste, with tacky consistency
Dropping point (°C):	260
Flashpoint (°C):	>200
