

# xFORM<sup>TM</sup>

## Remove the guesswork.

xFORM multifunctional fluids take the guess work out of onsite preparations. You can trust that bringing the one fluid to site will deliver you an optimal mud program.

xFORM delivers you the confidence that the ideal fluid for your drilling is always applied. It's a simple and efficient approach to mud program execution, where you get the best fluid to match the complexity of your drill site.

- ✕ Simplify inventory management with a streamlined supply chain
- ✕ Reduce administrative paperwork with just one fluid to register for QHSE compliance and risk assessment.
- ✕ Trust in our lab developed and field-tested multifunctional formulas, backed by over 40 years of experience supporting drilling contractors to achieve optimal results.
